sign

Sign

Il progetto Sign si amplia includendo una rivisitazione della gamma classica Saratoga secondo una filosofia che si può definire ultra modulare: l'obiettivo è di consentire al professionista di personalizzare il suo arredo professionale secondo il suo gusto estetico, le sue esigenze, il budget disponibile.

Tale progetto deriva dall'implementazione della lean manufacturing, che ha permesso a Saratoga di ottimizzare i flussi produttivi e di garantire la massima flessibilità nella personalizzazione. Il cuore del progetto è la monoscocca che, grazie all'estesa gamma di allestimenti disponibili, si può "vestire" come un abito sartoriale in 256 declinazioni differenti.

The Sign project widens its horizon including a reinterpretation of the classic Saratoga range according to a "ultra modular" philosophy: the aim is to enable the practitioner to customize his professional furniture according to the aesthetic, to the needs, or the budget.

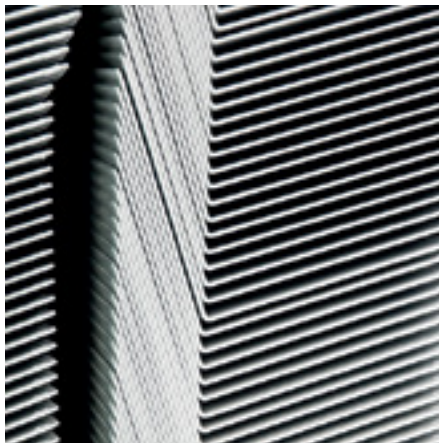

This project stems from the implementation of lean manufacturing, which allowed Saratoga to optimize production flows and to ensure maximum flexibility in customization.

The heart of the project is the unique body that, thanks to the extensive range of included features, can be "dressed" like a tailored suit in 256 different variations.

CORPORATE IDENTITY

Da oltre 40 anni saratoga è specializzata nella produzione di arredi tecnici e sale di sterilizzazione con un focus particolare al design e all'ergonomia. Il sito produttivo si estende su un terreno di 15.000mq ed include le più avanzate tecnologie per la fabbricazione e la verniciatura dei nostri mobili. L'azienda è certificata UNI EN ISO 9001 dal 14 novembre 2002.

Saratoga has been a leading company in the field of professional dentistry equipment for dental clinics and sterilization rooms with a special focus on design and ergonomics, for more than 40 years. The production site covers an area of 15.000 sqm and includes the latest technology for the manufacture and painting of our furniture. The company is certified UNI EN ISO 9001 since November 14, 2002.

sign

SIGN B

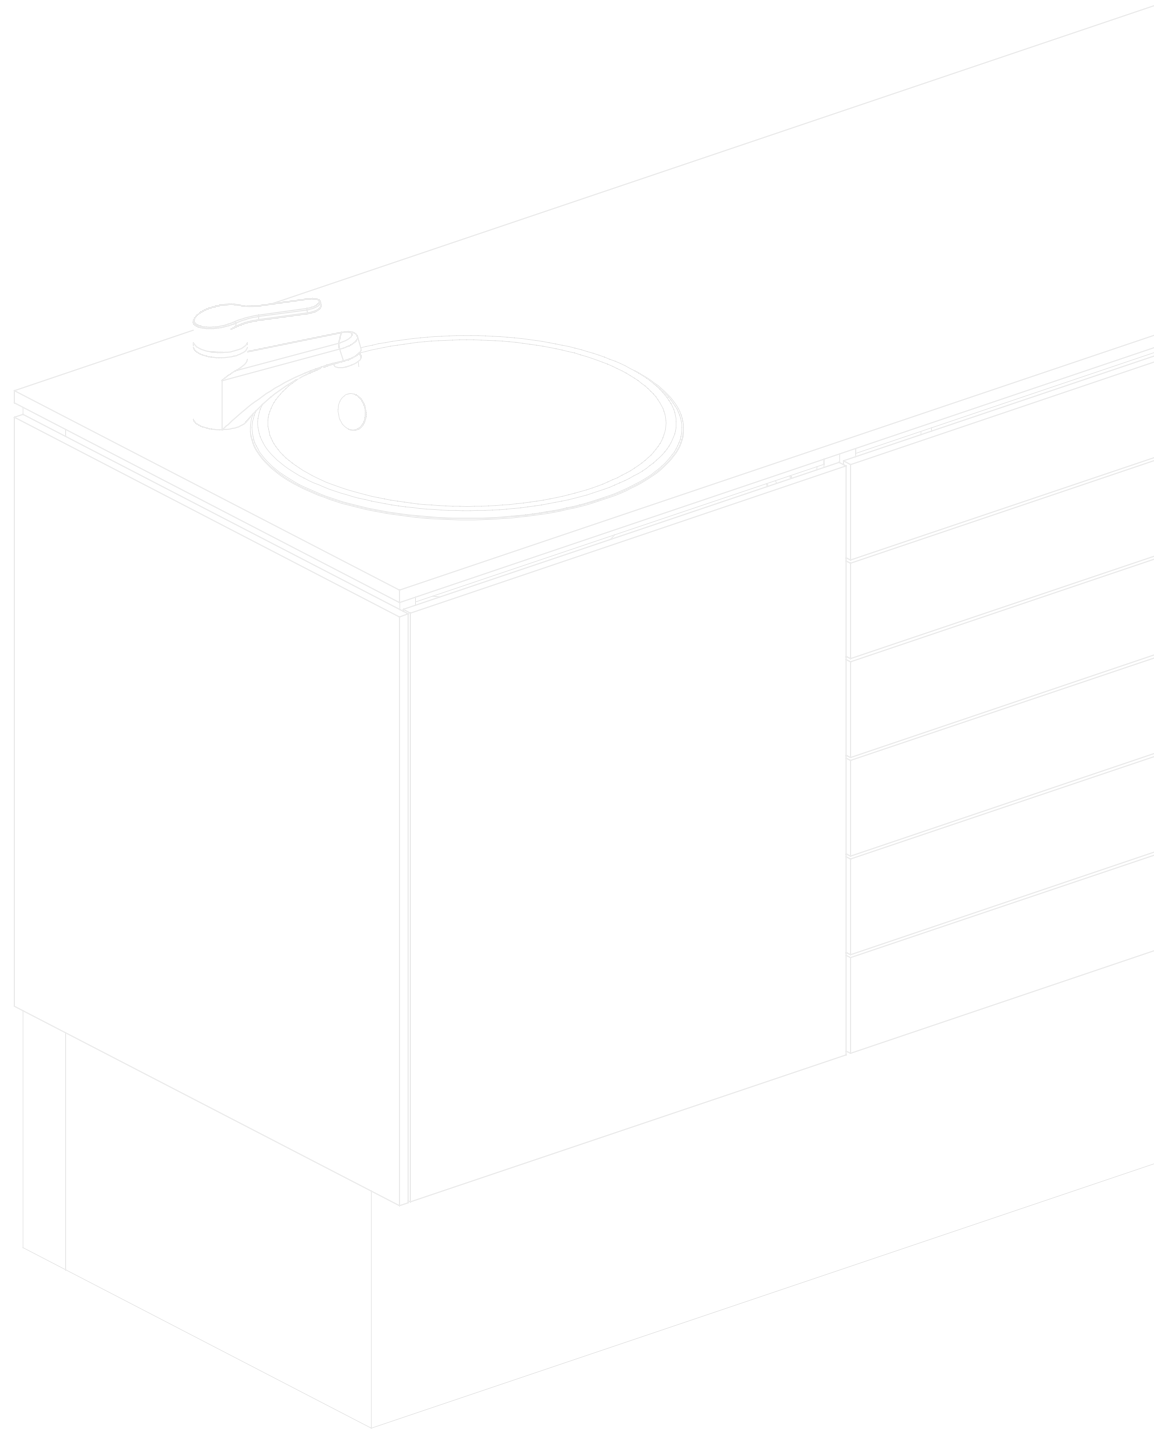

I modelli Sign si adattano allo stile dell'ambiente e sono proposti in 3 diverse configurazioni: fino a terra, rialzata e sospesa.

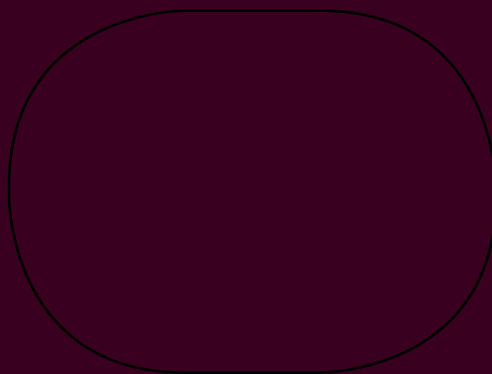

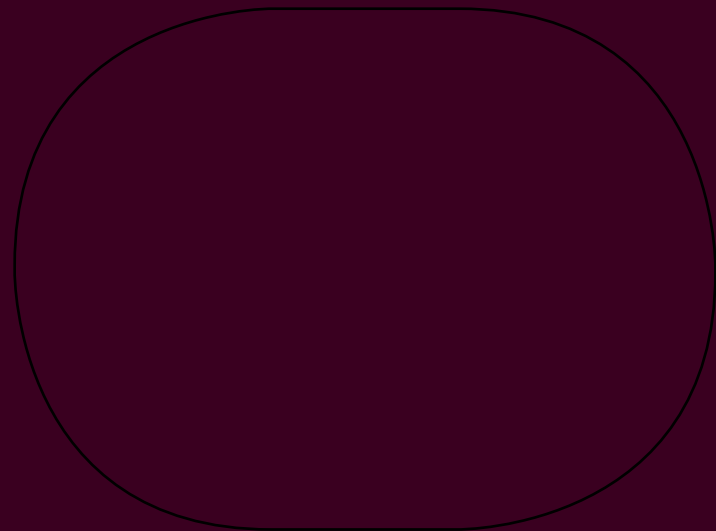

Nella versione fino a terra è possibile scegliere tra la semplicità dello zoccolo e la praticità del cassettone.

The SIGN models adapt themselves to the style of the surrounding environment, and feature three different configurations: till the floor, raised and suspended

In the "till the floor" version you can choose between the plinth simplicity and drawers practicality

sign

SIGN+ B

In tutte e tre le versioni l'elemento protagonista che connota la linea e firma il suo stile è il componente a slitta che disegna il mobile dal top a terra, lungo il suo profilo.

In all three versions the core element that distinguishes the line and signs its style is the slide component that traces the cabinet from the top down to the ground, along its outline.

Elegante e contemporanea, SIGN, nello stile delle linee Saratoga, si adatta con carattere e leggerezza ad ogni ambiente. La linea Sign può essere abbinata alle numerose vetrine e moduli igiene disponibili.

Stylish and smart, SIGN, in the style of Saratoga lines, fits with character and lightness to any dental cabinet.

The Sign line can be matched to the wide range of wall cabinets and hygiene modules available.

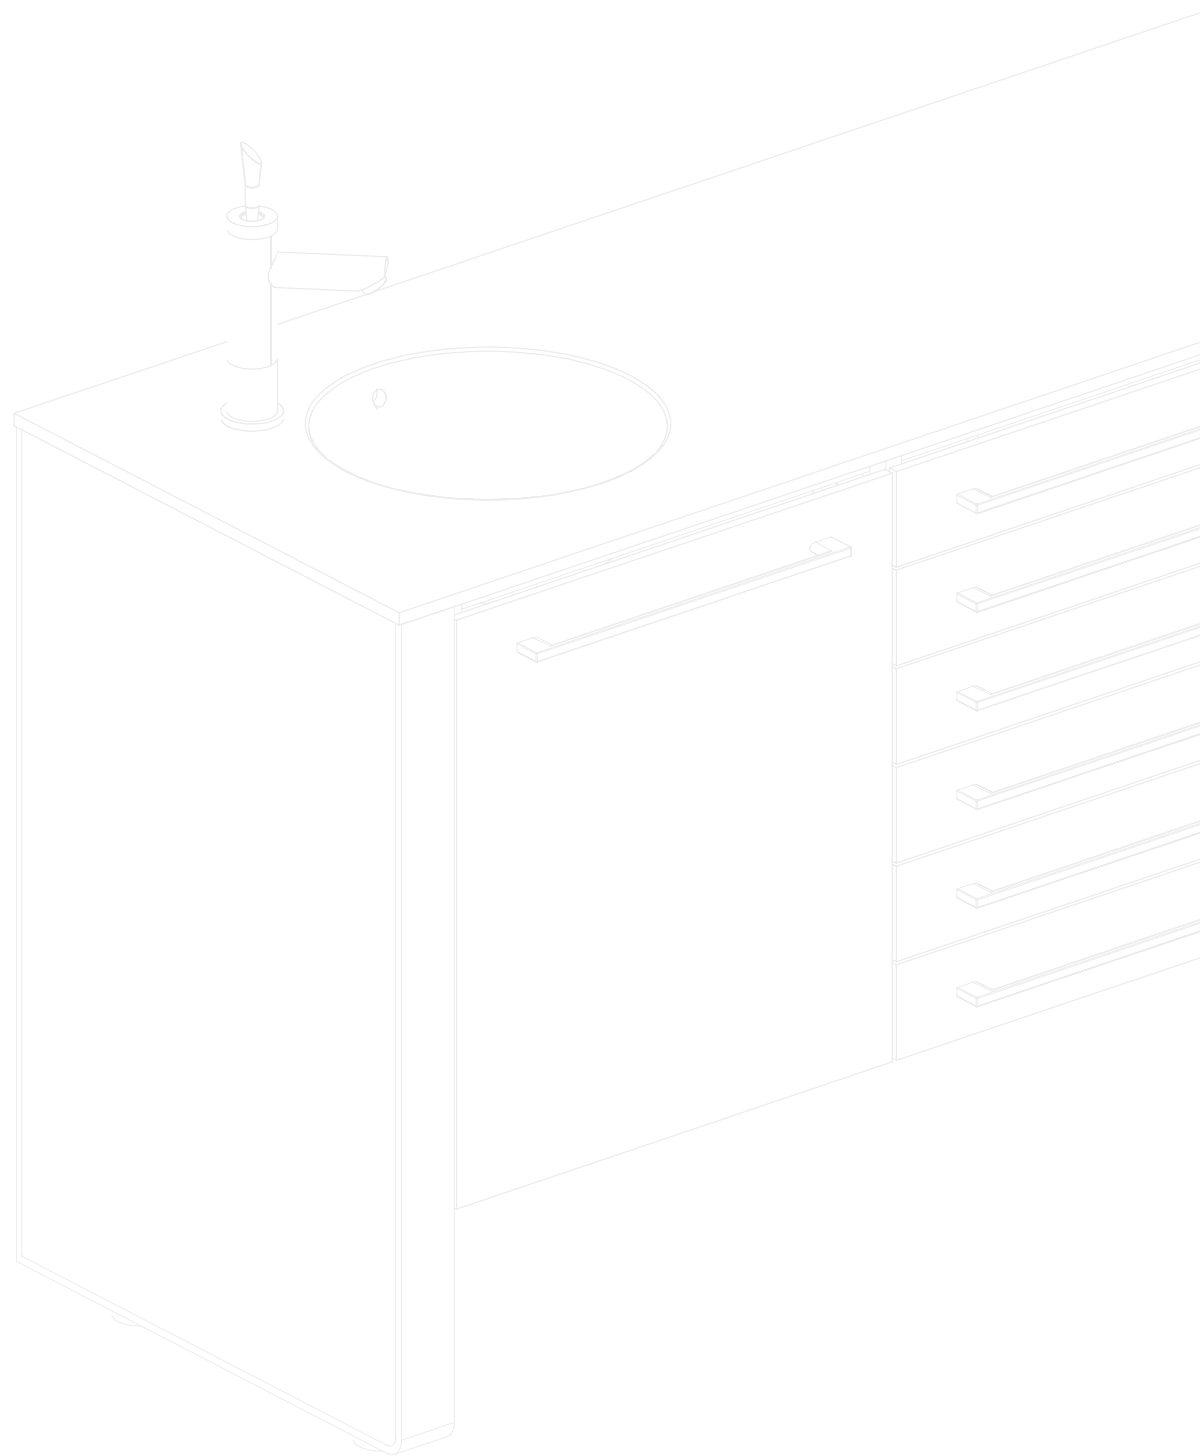

sign

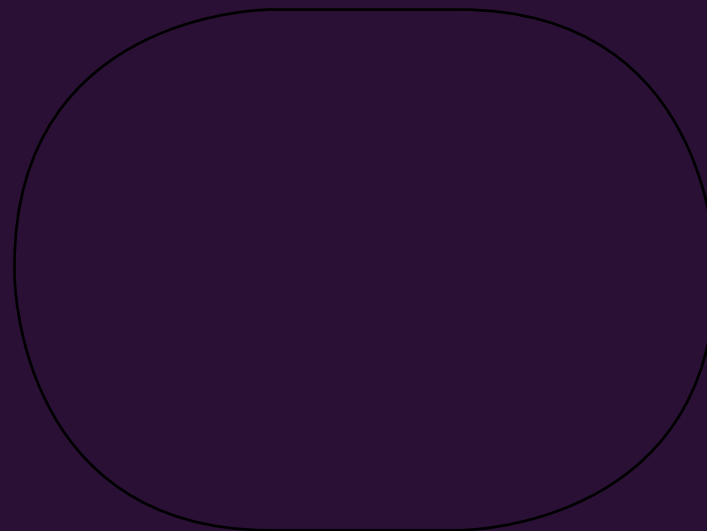

SIGN+ F

La slitta è il vero tratto distintivo di ogni modello SIGN e può essere personalizzata nel colore.

The slide is the real distinguishing trait of all SIGN models, and its color can be personalized at will

sign

SIGN+ S

L'assenza di spigoli, i bordi arrotondati, le superfici complanari tra loro e la slitta che riprende lo stesso raggio di curvatura dal top all'appoggio a terra, donano leggerezza al mobile, che richiama un elegante stile vintage.

The absence of sharp corners, the rounded edges, the surfaces coplanar with each other and the slide with the same curvature radius from the top to the part resting on the ground provide lightness to the piece of furniture, which brings to mind an elegant vintage style.

 SARATOGA

S_ky is the new dispenser designed by Saratoga that adapts to the needs of every dental practice.

In the 1500 or 1000-mm versions, it can contain modules for gloves, masks, cannulas, wipes, as well as soap, disinfectant (with manual or infrared dispensers), glasses and paper roll holders.

SARATOGA

It is possible to choose the position, type and quantity of modules until the internal space is totally filled. Available in standard version or with additional open side compartments.

Extremely compact and functional, S_ky can feature all colors available in the Saratoga range.
